

ILSOFT NI

(Softener, Lubricant for All Cotton)

ILSOFT NI is the softening lubricant for all cotton which has the excellent effect of both in softness and lubrication. ILSOFT NI is suitable for high speed sewing due to the reduction of the coefficient of friction. ILSOFT NI has the effect of no-yellowing and antistatic as well as washfastness and bath life.

■ SPECIFICATIONS ■

- Appearance : Milky White Emulsion
- Specific Gravity : 0.994
- pH(5% Solution) : 7
- Ionicity : Nonion

■ FEATURES ■

1. ILSOFT NI has the effect of antistatic and reduction of the coefficient of friction.
2. ILSOFT NI is quite stable in emulsion as well as in mixture with other softeners.
3. ILSOFT NI definitely keeps lubricant against frictional heat.
4. ILSOFT NI never yellows.
5. ILSOFT NI sustains the value of color.

■ APPLICATION ■

It depends on conditions, but generally it is recommended to use 10 ~ 40g/l.

[Suggestion]

- Before use ILSOFT NI, be sure to check color.
- Due to the excellent durability it might occur in reproduction.
- It is required to store over 20°C.
- It might be impaired in quality in case of frozen in winter.

■ PACKING UNIT ■

100kgs and 200kgs PVC Drum
