ILDEFOAM DF30

(Defoaming agent)

■ SPECIFICATIONS ■

| | |
|--------------------|--------------------------------|
| Appearance | : white paste (at 25℃) |
| Chemical component | : Silicone emulsion |
| Solubility | : Easily mixable in cold water |
| Ionic | : nonionic |
| pH, 1% aq. Soln. | : 6.0 ~ 8.0 |

■ FEATURES ■

1. **ILDEFOAM DF30** is the silicone oil emulsion defoaming agent, which gives excellent foam extinguishing or antifoaming effect to the various kinds of the aqueous foaming solution.
2. This product's stability and dispersing ability is excellent, so that handling is very easy and good result is expected.

■ APPLICATION ■

ILDEFOAM DF30 is added to the foaming solution as it is or after being diluted by water. The adding quantity of **ILDEFOAM DF30** differs depending on the foaming character and condition, but generally 50~3000ppm is added to the foaming solution by dropping method or sprat method.

3. ■ PACKING UNITS ■ **ILDEFOAM DF30** is the silicone oil emulsion defoaming agent, which gives excellent foam extinguishing or antifoaming effect to the various kinds of the aqueous foaming solution.
4. This product's stability and dispersing ability is excellent, so that handling is very easy and good result is expected.

Net 100 or 200 Kgs PVC D/M
